

## **Saint Johns Men's Club Newsletter: 9/6/24**

### **President's Update:**

Hope everyone is doing well and doing their best to stay cool. The course is definitely starting to mature and unlike past years, wet conditions are not keeping us from playing.

### **Committees just a reminder**

Rules – Bill Burns, Lee Geanuleas and Wes Tucker

Events – Sonny Massaro, Vince Costable and Ray Martinez

### **Membership**

We are continuing to try and grow the membership. We have grown some in 2024 but have also lost a few members. The board is refining the process for bringing on new members as we continue to grow.

### **Play**

- Match play schedule announced
- We will continue to blend various individual and team formats
- We will try our best to honor pairing requests but are also trying to keep team based events fairly equal.
- It is each player and playing groups responsibility to maintain an appropriate pace of play and respect the group in front and behind them. Please play ready golf. Also remember tee times are 9 minutes apart and be at the course 30 minutes before your scheduled tee time.

### **Website**

We continue to keep the website updated.

### **Scorekeeping**

The below process should be followed every round:

- Each group selects a separate electronic and paper scorekeeper at beginning of round.
- After completion of each hole, each player's score is verified and entered.
- After 9 holes, electronic and hard copy scores are compared and trued up.
- Same after 18 holes

Using this process there should rarely be disputes. A player who knowingly submits or agrees to an inaccurate score may be subject to disciplinary action.

### **Rule Questions or Disputes**

- Members are encouraged to download the USGA app. A link to the USGA site is on our web page as well. You may contact the pro shop for a question as well.
